## Greater Portland Landmarks is here to serve you.

Our mission is to preserve and revitalize greater Portland's remarkable legacy of historic buildings, neighborhoods, landscapes and parks. We believe that preservation is an essential strategy for renewing our neighborhoods, spurring economic development and keeping greater Portland one of the most livable communities in America. Thank you for all you are doing to preserve your homes and neighborhoods!

The 2017 Northern New England Preservation Directory is a juried listing. Listees are asked to provide references from satisfied customers and photographs of their work (when appropriate) as a condition of inclusion. However, the inclusion of a listing in the 2017 Northern New England Preservation Directory should not be considered a recommendation of the listee or an endorsement of the listee's work by Greater Portland Landmarks in any respect. Landmarks urges all property owners to require trades people, consultants, businesses, and artisans to provide references and to view their work before engaging them in a project.

We invite you to share our passion for preservation! There is useful information on how to fix up your old house, architectural surveys and tours, lectures and programs, historic markers, the all new online indexed Preservation Directory, and how you can become involved at [www.portlandlandmarks.org](http://www.portlandlandmarks.org).
